## Spring Credential Webcast

The Commission is happy to announce that the 2011 Spring Credential Webcast is scheduled for **Tuesday April 5, 2011 from 9:00 am to 12:00pm.**

Webcasting allows many people in dozens of different locations to see, hear and participate in a meeting or event as it is happening. Presentations can include panel discussions, recorded video, computer graphics and interactive audience discussion. While the originating site must have a meeting room, video production and ultra-high-speed Internet facilities, receiving sites need only have the ultra-high-speed Internet connection which is available at most county offices of education. Large screen viewing capability is preferable and a second computer is needed to participate in the meeting using online 'chat.' The proceedings are recorded and can later be 'streamed' over the Internet for viewing on demand.

If you are interested in hosting the webcast please contact Dixy Howard at [dhoward@ctc.ca.gov](mailto:dhoward@ctc.ca.gov).

Hope you can join us and don't forget to reserve those rooms. Additional details on topics and how to sign up will be available in a future Credential Information Alert.

### Sonoma County:

The County Office of Education will be hosting the webcast. Please look for registration on the Sonoma County Office of Education website: [www.scoe.org](http://www.scoe.org)
